

Big-bag specification for deliveries to the Zielitz underground waste disposal plant

Requirements:

1. measurements when filled (height x width x length):
max. 2,0 m x 1,1 m x 1,1 m
2. on pallets with the dimensions 1,2 m x 1,2 m or 1,1 m x 1,2 m
3. Gross weight max. 1,500 kg
4. verifiably 6-fold stackable; safety factor min. 5:1
5. fire retardant and antistatic
6. mining-hygienically non-objectionable
7. no bottom outlet
8. four loops for lifting, one at each corner
9. big-bag-labelling in accordance with IBC design requirements.
10. dustproof

The physiochemical attributes of the wastes must allow the use of big-bags as packaging material. The use is confined to homogeneous waste without shaped-edged components. Damage to the inner liner must be avoided.

Irrespective of these specifications packaging and transport must be carried out in accordance with ADR/RID.
